

Explanation:

The first date is the date the person got the card, the second date is the expiration date, after the expiration date is the same digits in the first year. The American Express Gold has many more numbers (I think 6 8 then 8). If you do find a Gold card keep it for it has a \$5000.00 backup even when the guy has no money!

[Sample: Master Card]

5XXX XXXX XXXX XXXX
XXXX AAA DD-MM-YY MM/YY
John Doe.

Explanation:

The format varies, I have never seen a card that did not start with a 5XXX there is another 4 digits on the next line that is sometimes asked for when ordering stuff, (and rarely a 3 digit letter combo (e. ANB). The first date is the date the person got the card and the second date is the expiration date. Master Card is almost always accepted at stores.

[Sample: VISA]

XXXX XXX(X) XXX(X) XXX(X)
MM/YY MM/YY*VISA
John Doe

Explanation:

Visa is the most straight forward of the cards, for it has the name right on the card itself, again the first date is the date he got the card and the second is the expiration date. (Sometimes the first date is left out). The numbers can either be 4 3 3 3 or 4 4 4 4. Visa is also almost always accepted at stores, therefore, the best of cards to use.

88. How To Create A New Identity by The Walking Glitch

You might be saying, "Hey Glitch, what do I need a new identity for?" The answer is simple. You might want to go buy liquor somewhere, right? You might want to go give the cops the false name when you get busted so you keep your good name, eh? You might even want to use the new identity for getting a P.O. Box for carding. Sure! You might even want the stuff for renting yourself a VCR at some dickless loser of a convenience store. Here we go: Getting a new ID isn't always easy, no one said it would be. By following these steps, any bozo can become a new bozo in a couple of weeks.

STEP 1

The first step is to find out who exactly you'll become. The most secure way is to use someone's ID who doesn't use it themselves. The people who fit that bill the best are dead. As an added bonus they don't go complaining one bit. Go to the library and look through old death notices. You have to find someone who was born about the same time as you were, or better yet, a year or two older so you can buy booze, etc. You should go back as far as you can for the death because most states now cross index deaths to births so people can't do this in the future. The cutoff date in Wisconsin is 1979, folks in this grand state gotta look in 1978 or earlier. Anything earlier there is cool. Now, this is the hardest part if you're younger. Brats that young happen to be quite resilient, taking falls out of three story windows and eating rat poison like its Easter candy, and not a scratch or dent. There ain't many that die, so ya gotta look your ass off. Go down to the library and look up all the death notices you can, if it's on microfilm so much the better. You might have to go through months of death notices though, but the results are well worth it. You gotta get someone who died locally in most instances: the death certificate is filed only in the county of death. Now you go down to the county courthouse in the county where he died and get the death certificate, this will cost you around \$3-\$5 depending on the state you're in. Look at this hunk of paper, it could be your way to vanish in a cloud of smoke when the right time comes, like right after that big scam. If You're lucky, the slob's parents signed him up with social security when he was a snot nosed brat. That'll be another piece of ID you can get. If not, that's Ok too. It'll be listed on the death certificate if he has one. If you're lucky, the stiff was born locally and you can get his birth certificate right away.

STEP 2

Now check the place of birth on the death certificate, if it's in the same place you standing now you're all set. If not, you can mail away for one from that county but its a minor pain and it might take a while to get, the librarian at the desk has listings of where to write for this stuff and exactly how much it costs. Get the Birth certificate, its worth the extra money to get it certified because that's the only way some people will accept it for ID. When you're getting this stuff the little forms ask for the reason you want it, instead of writing in "Fuck you", try putting in the word "Genealogy". They get this all the time. If the Death certificate looks good for you, wait a day or so before getting the certified birth certificate in case they recognize someone wanting it for a dead guy.

STEP 3

Now your cooking! You got your start and the next part's easy. Crank out your old Dot matrix printer and run off some mailing labels addressed to you at some phony address. Take the time to check your phony address that there is such a place. Hotels that rent by the month or large apartment buildings are good, be sure to get the right zip code for the area. These are things that the cops might notice that will trip you up. Grab some old junk mail and paste your new labels on them. Now take them along with the birth certificate down to the library.
